Overview

This pathway meets requirements for the Associate of Science - Transfer, Track 2 degree requirements with a concentration in Physics (Accelerated). An "accelerated" pathway assumes students already have some background knowledge in physics, chemistry, computer science, and at the calculus level for mathematics either from high school or other college coursework. Alternatively, most physics students follow the non-accelerated Physics pathway. Please see your advisor to make your personalized educational plan for a pathway that works best for you.
